Todd Rindlisbaker Named Vice President of Total Building Commissioning

Salt Lake City—Total Building Commissioning, Inc. (TBC) has named Todd Rindlisbaker, P.E., QCxP, LEED™ AP, HBDP, CPD, as its vice president.

Mr. Rindlisbaker has been in the HVAC/plumbing and commissioning business for 16 years. He joined TBC in 2004 and has extensive experience in project management, HVAC design and energy studies. He specializes in hydronic heating and cooling systems, controls optimization for comfort and energy efficiency and in commissioning. He has been involved in the design, installation and commissioning of mechanical, plumbing and building management systems of more than 200 buildings throughout the Western and Midwestern United States and internationally.

A mechanical engineering graduate of Utah State University, he is a registered professional engineer (P.E.) licensed to practice mechanical engineering in Utah and Nevada. His certifications include: Qualified Commissioning Process Provider (QCxP), 2006; ASHRAE certified High Performance Building Design Professional (HBDP), 2008; and Leadership in Energy and Environmental Design 2.1 Accredited Professional (LEED™ AP) / 2005.

TBC comprises a team of engineers and commissioning agents, including engineers with LEED™ expertise. TBC is dedicated to adding value to new and existing buildings by helping owners ensure their buildings function optimally and according to the design intent. Based in Salt Lake City and with more than 25 years experience in building management systems controls, commissioning and re-commissioning, TBC provides commissioning to a broad range of clients throughout the United States and around the world.
